

# Afterschool '21/'22

During the '21/'22 school year, our group met regularly to study the Psalms and the first several chapters in Genesis. To burn off some energy before Bible Study there was football, kickball, basketball and many other games and activities. After gathering around the table for dinner we'd have our homework time then head home. We plan to do it all over again starting in August 2022. Check back here for details after summer camp.
